

CONSUS ENERJİ İŞLETMECİLİĞİ VE HİZMETLERİ ANONİM ŞİRKETİ
ENVIRONMENTAL POLICY

As CONSUS ENERJİ İŞL. ve HİZ. A.Ş. (Consus or Company), biomass and solar power plants aim to increase the environmental awareness of the people, institutions and organizations with which they directly and indirectly interact in distributed power and electricity trading segments; act ethically and responsibly towards all its stakeholders; and establish and maintain systems based on environmental protection and the efficient use of natural resources.

In line with this Policy, the Company;

- Carries out its activities in compliance with environmental legislation and international standards.
- Undertakes to manage and minimize the environmental impacts arising from its business activities and continuously improve its environmental performance.
- Aims to reduce greenhouse gas emissions to minimize their impacts on climate change.
- Carries out studies to reduce air emissions.
- Aims to use resources in the most effective way possible by reducing the consumption of all natural sources, prioritizes protecting water sources and preventing pollution, and treats or directly discharges wastewater in accordance with legal obligations, especially regarding wastewater discharge.
- Carries out activities to reduce, reuse and recycle waste generated as a result of its operations at the source and to transport and dispose of them as stipulated by the legislation.
- Takes care to optimize energy generation, transmission, and usage at every stage of its operations, undertaking efforts to increase energy efficiency.
- In line with its commitment to stakeholder relationship management, the Company adopts the principle of listening to all stakeholders and informing them via reports and disclosures about its environmental policy, approach, and performance.
- Monitors and audits environmental performance within the framework of the Environmental Management System. The Company continuously monitors its operations, identifies areas for improvement, and sets goals.
- To ensure stakeholder engagement, the Company continuously enhances its environmental performance by considering stakeholders' feedback during annual meetings and through existing communication channels regarding environmental policies and activities.

- Transparently sharing this policy with internal and external stakeholders is an integral part of the Company's environmental policy.

In this regard, CONSUS ENERJİ İŞL. ve HİZ. A.Ş., declares that it will set environmental goals, continuously review them, disseminate this Policy among all employees, comply with legal obligations and regulations, as well as commitments to its customers, and actively work towards pollution prevention and continuous improvement.

By the decision of the Company's Board of Directors, this Policy, dated 29.12.2022 and numbered 98, has been approved and entered into effect.
